Serving Clients ▪ Establishing Careers ▪ Building Community

Core Values

Clients, Careers, Community

Serving Clients

Create an exceptional relationship with everyone we contact so that their perceptions and expectations of what a law firm can do for them are transformed.

Establishing Careers

Facilitate great careers by providing opportunities to...

- 1) grow personally and professionally and to help others do the same,
- 2) achieve top tier pay and benefits
- 3) contribute to the firm culture, inevitably establishing the firm as a premiere place to work in California.

Building Community

Impact the community through giving and employee participation in order to provide opportunities to others in the communities we serve and help change the public's perceptions and expectations of the legal community.
